UI/UX DESIGNER & AI WORKFLOW SPECIALIST

Hardik Dhandhaliya

Senior UI/UX Designer · 10+ Years Experience

PROFILE

Results-driven Senior UI/UX Designer with **10+ years** of experience crafting intuitive, user-centric digital products. Expertise in **end-to-end design thinking**, prototyping, and AI-augmented design workflows. Proficient in leveraging generative AI tools to deliver production-ready assets **40% faster**. Passionate about bridging design excellence with cutting-edge AI to create **seamless user experiences** at scale.

EXPERIENCE

Senior UI/UX Designer

Destiny WS · Florida, USA (Remote)

2022 — Present

- Lead design of user-friendly interfaces for web and mobile platforms, improving user retention by **25%**.
- Integrate AI tools (Midjourney, ChatGPT, Cursor) to streamline workflows, reducing concept-to-prototype time by **40%**.
- Collaborate with cross-functional teams to innovate, prototype, and enhance product usability using data-driven insights.
- Mentor junior designers on modern design systems, AI-assisted design, and industry best practices.
- Communicate design rationale to stakeholders, aligning UX strategy with business objectives.

UI/UX Designer

VGO Solutions · Ahmedabad, India

2017 — 2022

- Worked with product teams to understand user needs, creating wireframes, prototypes, and user flows for **15+ projects**.
- Iterated designs based on research and usability testing, ensuring intuitive interfaces across web and mobile devices.
- Built and maintained scalable design systems in Figma, reducing design handoff inconsistencies by **30%**.
- Contributed to high-quality user experiences for clients including Rappi, Bancolombia, and Qbuenplan.
